K0302011

In cooperation with the Hebrew University of Jerusalem's Robert H. Smith Faculty of Agriculture – MASHAV's only academic professional affiliate – we are pleased to announce the opening of a capacity building course entitled **Water Management- Decision Making, Environmental Aspects & Risk Assessment**. The program will be held in Israel at the Robert H. Smith Faculty of Agriculture, Food and Environment, Division of External Studies, in Rehovot from October 24 – November 22, 2011.

INTERNATIONAL POSTGRADUATE PROGRAM

RATIONALE

According to the World Water Development Report (WWDR), problems of poverty are inextricably linked with those of water - its availability, its proximity, its quantity and its quality. Improving the access of poor people to water has the potential to make a major contribution towards poverty eradication and improvement of quality of life.

The combination of safe drinking water and hygienic sanitation facilities is a precondition for health and for success in the fight against poverty, hunger, child deaths and gender inequality. It is also central to the human rights and personal dignity of every woman, man and child on earth. One person in six has
